

JACKRABBIT.

Promising Outlook For The Camp.

Tuesday we paid a visit to Jackrabbit and while there examined the Day mine and Onondaga, both the property of the Pioche Consolidated and Yuba Mg. Co's.

THE DAY MINE

was purchased by the present owners some three months ago, and under the foremanship of Mr. T. C. Williams, proving a valuable piece of property. They are at present working a force of about 35 men and expect soon to increase. The mine is 900 feet deep but work at present extends to 400 feet only. A drift of 800 ft. leads one to where the engine is; a drop of 400 ft. and you are on the 4th station where there is a body of ore in sight that is 100 ft wide and 7 feet thick and opened for about 200 ft. The amount of ore on this level is hard to compute, but it is safe to say that 100 tons a day can be shipped for two years at least. The advent of the railroad next Fall will see trains loaded with Day ore leaving the depot regularly. The average of this ore is about 40 oz. silver and 20 per cent lead. On the engine level and where the strike was made which partly induced the purchase of the mine a stop has been run for a distance of 200 ft. the ore averaging for the whole distance, three feet in width and will assay 50 to 80 oz. and 25 per cent lead. On the top workings of the mine there is a fine body of two feet ore exposed that goes 200 oz. silver and with a little assaying will go 400 oz. per ton. The mine as it now stands with work only being done on the above mentioned places shows more ore in sight and of a larger body than any mine on the Coast, possibly outside of the Comstock. The same body of ore shows itself on the 6th level, but has not been opened up yet.

THE ONONDAGA MINE

which has recently been purchased from Messrs. Turner, Welland and Williams for the sum of \$30,000 is another fine piece of property and will swell the coffers of the company more than double fold the price paid for it just by extracting what ore is in sight at present. The ore of this mine is easily worked and of a more than average grade. It would be a hard matter to give such a description of the mine that would do it justice in the columns of this paper for there are so many little drifts, cross-cuts and winzes that have no names as yet that it is a hard matter to connect them in such a manner that it would be perfectly understood by the readers. It has to be seen to be fully appreciated. There are at present 5 men taking out ore and it is understood that it will not be long before more men will be put on.

We are indebted to Mr. T. C. Williams for courtesies extended.

PIOCHE STATION. In all probability next Christmas witness the completion of the extension of the U. C. Railroad to a point three miles north of town, in the Flat. The question of whether the line will build here or not is affirmatively settled and two graders camps are now located and at work this side of Dutch Flat. As fast as contracts are finished on the other end, men will be transferred to this end and the necessary 25 or 30 miles of road bed will go up in short order, most of it being only three feet in height. The railroad company has secured terminal facilities, in the Flat north of town, by original entries in the State Land Office, all the land there being vacant. This work nearing town will make business of every character more lively, especially this Summer and Fall, and will probably result in Lincoln County's vote this year being five times that of two years ago.

MASONIC BALL.—A ball will be given under the auspices of St. John's Lodge, No. 18 F. & A. M. and Keystone chapter No. 6 R. A. M. at Browns Hall on Tuesday evening, June 24, 1890. St. John's Day. See "ad" under new to-day.

Work has commenced from Dutch Flat up Meadow Valley Wash this way on the extension of the Utah Central Railroad.

All parties indebted to H. D. Spicer will please settle immediately with H. E. Freudenthal. See notice under new to-day.

A bottle of Trib should be in every household.

Suit was commenced in the District Court yesterday by H. Welland against Wesley Williams for \$1,200.

A notice of sale of property at Public Auction next Saturday appears in another column in this issue.

RESURRECTION.

Lincoln County Ahead Once More.

At Eagle Valley on Friday week, the residents were treated to a genuine resurrection. The Indians that were in the Valley had all gone to Panaca to attend a fandango, with the exception of an old Indian called Teekaboo, and his squaw. Teekaboo is a very old Indian, was very sick and could not attend the fandango on that account, and his faithful squaw stayed with him to minister to him in his last moments. Teekaboo grew gradually worse and as it seemed but a matter of a few days before his time would come, his squaw thought of the gay time the rest were having at the fandango, concluded to bury her old man. Digging a hole about three feet deep she wrapped old Teekaboo up in a blanket and put him in the hole and covered him with sage brush and a few rocks and put a cup of water on each side of the grave in case he would like a drink, but had taken good care to wrap his arms that he had no use of them. The place where she buried him was about a mile above Eagle Valley. She then went to Eagle Valley and told the residents that Teekaboo was dead and on Wednesday she left for Panaca. On Friday, Ike Matthews was riding up the Valley, and hearing some unusual noise, followed from whence the sound came and came upon the grave. He pulled part of the sage brush off and Old Teekaboo's face was revealed. Teekaboo said "Koch die," which so scared Mr. Matthews that he jumped on his horse and beat Tenbrooks time back to the Valley. He told the folks there, who immediately went up, but could not persuade Mr. Matthews to go with them. They found him as Mr. Matthews had told them and soon had him out and he bids fair to out live his old squaw yet. He was in the grave about sixty five hours.

DIED.—J. Bissio, a native of Italy died Sunday evening, at about 9 o'clock, of double pneumonia. He had been sick but a short while before his death. On going to Milford with a passenger some two weeks ago, he caught a cold which settled on his lungs, and when he got back, which was Thursday week, it had resolved itself into pneumonia. He would not take any medicine that was prescribed for him by the physician called on, and rapidly grew worse until death came and ended his sufferings.

J. Fields, at the day mine, at Jackrabbit, on Tuesday, narrowly escaped being seriously hurt. He was loading buckets on the 400 ft. level at the shaft and undoubtedly filled the bucket two full. On ringing to hoist, the bucket had not gone far when a rock that would weigh 8 pounds fell off and struck his right arm between the elbow and wrist. It mashed the flesh a little but did not break any bones. He will be able to work in a few days.

Al. Godbe and Joe Goodrich left for Spring Valley last week and to make quick time took a short cut which they had heard about. They were told to keep every right hand road after crossing the flat. They done so and came to the end of six wood roads and traveled over roads that had not seen a wheel in ten years. Instead of making the trip in five hours they were ten and were lucky to get to Spring Valley at all. Short cuts are hard things to follow sometimes.

The ball next Tuesday evening given by the Pioche Library Association promises to be well attended. As the net proceeds are for the benefit of the Association every body should buy a ticket whether they attend or not.

Decoration Day was more generally observed here this year than for a number of years past. The Odd Fellows turned out and decorated the graves in their cemetery, and many others decorated the graves of relatives and friends.

A bottle of Trib should be in every household.

Sunday a picnic party took in Cathedral gulch, and merrily passed the hours away. While there Mr. Sam Godbe caught a young coyote. Frank Newton now has it and purposes raising it for a fighter.

The "ad" of J. Booth & Sons appears under new to-day. They are at work opposite the Pioche Hotel and display some nice views of town which they have taken.

The reveratory furnace started yesterday on Raymond & Ely block ore as a trial test and so far has met all expectations.

W. S. Godbe departed for Salt Lake during the week.

The "Hobn's" come and go like ants on a sand hill.

SCHOOL EXERCISES

Wednesday the public schools closed and the day was devoted to a general review of all studies. In the Grammar Department the first class in Arithmetic consisting of Mattie Sawyer and Annie Carman did remarkably well and showed by their quick work that they had studied hard and reflected great credit on their teacher.

Miss Annie Carman surprised the visitors with the ease in which she did some very difficult problems in Algebra.

The 2nd arithmetic class did equally as well as the first, and showed that they had received the same care and attention.

The prize for the best speller given by the teacher was captured by Mattie Sawyer. It was a handsomely bound copy of Longfellow's poems.

The prizes offered by the publisher of the RECORD for the best average in studies and deportment, from Feb. 10, to the 28th of May, fell to Annie Carman and Tennie Roeder, Annie Carman having the high percentage of 99. The prize was a silver violin pin with the word "studies" engraved on it.

The prize for deportment was a gold charm with the word "deportment" engraved on it. A per cent of 98 was obtained by Annie Carman, Tennie Roeder, Maud O'Connor, Ashley Turner and Alton Carman. As Annie Carman received the prize for studies she withdrew in favor of the others, and on drawing, it was won by Tennie Roeder; the others receiving books.

A prize of a book, given by the teacher to be drawn for by those who had attended school regularly, was won by Miss Almer Dupont.

A prize of \$5 in geography competition was a tie and each side took half.

The presentation of the prizes was made by Hon. J. Poujade in a few well chosen remarks.

PRIMARY DEPARTMENT.

The exercises were similar to those in the Grammar department and the scholars all did exceptionally well and showed that they had received the care of a good teacher.

In the 4th Reading class, Clarence McFadden won the prize; 1st 3rd reading Pearl Adelmann; the 2nd 3rd reading, Jamie Odell. Honorable mention Theresa Werner, Charley Osborne.

In the 1st spelling, Clarence McFadden was again successful, the 2nd spelling was a tie between Dolly Warren and John Gindorf, and the 2nd reading spelling was won by Eddie Deck.

The term just ended lasted nine months and the improvement of the scholars in their studies in that time has been great and the parents and public generally may justly congratulate themselves that they secured the services of two such able teachers as Miss Lena Clinton and Miss Isabel Osborne.

ACCIDENT ON THE RAILROAD GRADE NEAR CLOVER VALLEY.

A messenger came in from Clover Valley late Thursday night after a doctor to attend a man who, that afternoon, had been seriously injured by a blast at one of the tunnels below Clover Valley. The accident occurred a short distance below McLaughlin's camp, on the latter's work. Four freight teams were on their way up the canyon, one wagon, driven by J. D. Holly, being some two hundred yards in advance of the others, when without any warning whatever to the teamsters, a series of five blasts were set off at the facing of one of the tunnels. At the first discharge, Holly, who was only some sixty feet away, stopped his team, and amid a shower of flying rock, ran for his life. He had gone but a short distance when a flying rock struck him on the back part of the thigh, knocking him some twenty feet, shattering his limb, and, it is thought, also breaking his thigh. His companions hurried forward to his assistance and had but reached the spot, when, without warning, three other blasts were fired below, scattering rocks along the road over which they had just passed. Holly, the injured man, was conveyed to Clover and a doctor sent for immediately. Dr. Dukes, the road surgeon living at Clover Valley, was himself injured several days ago, his team running away near the summit, at the explosion of a blast, and running over a seven foot embankment, upsetting the rig, the doctor sustaining severe injuries in the left breast. Dr. Nesbitt accompanied the messenger on his return to Clover yesterday morning.

A bottle of Trib should be in every household.

Mr. L. Wertheimer returned home Thursday and seems much improved by his trip. While below he purchased a fine lot of goods which are displayed on his counters.

DOYLE-O'CONNOR.

John Doyle and Maggie O'Connor were married at the Catholic Church, Sunday evening, by the Rev. Father Quigley. Miss Annie Donohue was bridesmaid and the groomsmen John Dolan. After the impressive ceremony was over which made them one, they received the congratulations of friends and repaired to the residence of the brides mother on Meadow Valley Summit, where the reception was held. An enjoyable time was had by those present, and happiness and prosperity were wished them. The RECORD joins in the congratulations and wishes them such a trip through life that if were possible to live it over again they would want the second trip to be as the first.

The young couple were the recipients of the following presents;

Gold watch, from the brides mother. Fancy Rochester lamp, Mrs. Eliza Lawson.

Carving set, Mr. I. G. Boardman. Chamber set, W. J. Dooley and J. Mocks.

One doz. wine glasses, John Dolan. One doz. tumblers and silver tray, Mr. and Mrs. A. Jacobson.

Silver tray and cake basket, Mrs. Deck.

Half doz. dinner plates, T. McMahon.

Half doz. china breakfast plates, Mrs. McMahon.

Half doz. silver table spoons and silver butter knife, F. McMahon.

Tea set, Mr. and Mrs. Frei.

Glass fruit dish, Mr. and Mrs. Lloyd.

Blue silk cabinet frame, Mrs. W. R. McFadden.

Red plush cabinet frame, Clara Lytle.

Glass berry dish, Mrs. T. Mitchell.

Table linen and dozen napkins, J. Nesbitt and Bro.

Lace bed set, Bert Dooley.

Half doz. napkins, Mr. and Mrs. B. McDonough.

Shaving mug, Fred Davis.

Mustache cup, Mrs. E. D. Turner.

China cup and saucer, Mr. E. D. Turner.

Berry and half doz. sauce dishes, Miss Nellie Middleton and Mrs. E. Watkins.

Half doz. glass tumblers, Miss Annie Donohue.

China cup and saucer, Miss Mattie Lynch.

Silver pepper and salt box, Mr. and Mrs. Fred Godbe.

THE MILFORD FIRE.

Beaver Utonian.

Milford, May 23.—About 4 o'clock Wednesday afternoon, a fire broke out in the large barn just west of the depot, and within an hour from that time Mowrie's hotel, Joliff's saloon, Kilpatrick Bros. & Collins store were enveloped in the flames. The post office and express office, Consolidated Implement Co. building, S. R. Doyle's saloon, H. M. McArtney's office, and one dwelling house were burned to the ground.

The fire lasted not to exceed 70 minutes.

The total loss is estimated at from \$60,000 to \$75,000. Three fine horses belonging to Joliff perished in the flames. The origin of the fire is supposed to have been from a cigar or cigarette stump left by a man who had been sleeping in the hay loft of the barn.

Kilpatrick Bros. & Collins, are the heaviest losers. They claim it will take about \$25,000 to cover their loss. The Consolidated Implement Co. come next, their losses will sum up to \$12,000.

The inconvenience of getting water made the matter much worse than it would otherwise have been.

The station and warehouses are intact.

On some new rumor that the railroad will build to California via Meadow Valley Wash, over twenty-five thousand acres of Desert lands in the southern part of this County were entered at Carson during the past month, the applications coming from almost every section of the United States, the greater part being from the East.

A girl made its appearance at the ranch of Jos. Delmeu, Sunday morning. The little stranger was made welcome and will be Joe's special charge.

The regularly monthly meeting of the Board of County Commissioners will take place Monday. Present your bills to the Clerk of the Board to-day.

Dan Roeder is open at his old place on the road just below Jackrabbit and rakes in a stray quarter every once in awhile.

The smelter started up Tuesday and is running as smoothly as water does down hill.

Locals continued on second page.
